IMPORTANT NOTICE

NPG Corporation has been hired to perform seal coat work at **CROSBY VILLAS** as follows:

To assist you in your understanding of the schedule, the following information will outline the dates and work projected for that day. Please keep in mind that weather and asphalt conditions may change the dates listed below.

Please be advised the work may cause some brief inconvenience, but will benefit your community.

Seal Coat & Stripe Work Schedule

Phase 1 ~ Monday, May 1st

Phase 2 ~ Tuesday, May 2nd

We would appreciate your cooperation in the following matters:

1. All vehicles must be removed from the Association's streets and work/parking areas for work to begin by 7:00 a.m. during the seal coating days. Vehicles are to remain off the streets until the cones and ribbons have been removed from designated areas. No driving on the streets during this time on the streets until they are re-opened for vehicular driving.
2. The Management company will authorize immediate towing of any vehicle(s) parked on the areas which have been designated to be seal coated on that particular day within the community without warning and at the owner's expense.
3. Please make sure your irrigation is turned off 24 hours prior to the asphalt and seal coat project so that the streets will be dry during this project. Irrigation should remain off until 24 hours after the street is opened. Any water that goes onto the street prior and during the seal coat will cause the seal not to properly adhere to the asphalt.
4. Please note that the material being applied in the construction area is wet and will stick to your shoes, clothing, skin, and cars causing tracks to be left on concrete, inside residences, carpets, etc. NPG will not be responsible for any carelessness due to crossing over areas that were blocked off.
5. Please be alert when driving or walking near the construction areas and **DO NOT CROSS**, as these areas will be coned and/or ribboned off. Any individual that drives on the street prior to the street being opened for vehicular access will be responsible for any damages to the street or sidewalk.
6. Please direct all inquiries to your Property Manager at (951) 491-7363.

We will endeavor to complete this work as quickly as possible and with a minimum inconvenience to you.

Thank you for your cooperation!
